

Henry Perkins — WordPress Support Engineer

PHP · JavaScript · Gutenberg · REST/HTTP/DNS · Root-cause debugging · Customer communication

Chicago, IL · hperkins@gmail.com · hperkins.blog · [GitHub](https://github.com)

WORDCAMP US 2026 — Phoenix, Aug 16–19 · Selected to staff the Core AI booth

TARGET: SUPPORT ENGINEER — WordPress support, site delivery, root-cause debugging, and clear handoff between customers and engineering.

WORDPRESS.COM SUPPORT

Automattic — Happiness Engineer | Remote · Oct–Nov 2012

Resolved WordPress.com issues across publishing, configuration, billing, domains, and DNS; wrote root-cause troubleshooting and reproducible details for customers, product, and engineering.

NAMED CLIENT DELIVERY

Independent Technology Consultant | Oct 2022–Present · selected delivery in 2026

LIVE — Delivered DJ Lee & Voices of Judah from discovery through launch: a booking-first static JavaScript experience on one Cloudflare Worker with a validated server-side booking route; [public source](#) keeps the handoff inspectable.

UPSTREAM WORDPRESS CONTRIBUTION RECORD

MERGED — [WordPress/ai PR #501](#): authored Content Resizing and Title Generation experiment documentation; merged May 18, 2026.

OPEN UPSTREAM CODE — [WordPress/php-ai-client PR #263](#): authored regression coverage and finite-vector validation rejecting NAN, INF, and -INF embedding values.

OPEN UPSTREAM CODE — [WordPress/ai-provider-for-openai PR #40](#): authored model-aware sampling compatibility metadata and tests for OpenAI reasoning models.

REPORTED · FIX SHIPPED — [Issue #529](#): reported and reproduced a Guidelines content-type defect; a maintainer authored [PR #593](#) and [WordPress AI 1.0.1](#) shipped it.

REPORTED · INTEGRATION TESTED — [Issue #732](#): authored the report and reproduction. Anubhav Anand authored [PR #757](#); Henry tested lifecycle capture, found duplicate successes and missing failures, and proposed the ownership split.

TECHNICAL PROOF

Flavor Agent — Author | WordPress agent-governance plugin

PRERELEASE + ACTIVE — [v0.1.0-rc.3](#) is the latest public prerelease; post-RC3 main adds governed content/template apply and undo, schema hardening, and canonical target authorization; unreleased.

AI Provider for Codex — Author | independent WordPress plugin

RELEASED OWNED WORK — [v2.1](#): WordPress AI Client provider for Codex text and capability-gated image generation with isolated per-user runtime state.

HPerkins Tokens — Author | WordPress theme

RELEASED OWNED WORK — [v0.3.53](#) · hperkins.blog: token-governed block theme and accessible evidence system. Later commerce work is merged to main and unreleased.
